Management**

**Safety Culture and
Leadership**

The Company of
Master Mariners of
Canada

September 29 – 30, 2010

**St. John's, Newfoundland and
Labrador, CANADA**

Maritime Human Resource Solutions Seminar

Keynote Address

Capt. Hartmut Hess
Senior Deputy Director
Maritime Safety Division
International Maritime Organization

Operational Safety and the Human Element

The international regime for managing the Human Element in the maritime industry is undergoing fundamental change. The implementation of the Maritime Labour Convention and the Manila Amendments to the International Convention on Standards of Training, Certification, and Watchkeeping for Seafarers will impact all operations at sea. This is a rare opportunity to learn about the pending changes from a senior representative of the organization with the mandate to improve safety at sea.
